

RON JACOB NAVALEZ

Winnipeg, Manitoba | (204) 891-3923 | ron_navalez@hotmail.com

PROFESSIONAL SUMMARY

Detail-oriented and adaptable professional with a background in healthcare and hands-on experience in full stack web development. Currently completing a Full Stack Web Development certificate at Red River College, with practical experience building and deploying a real-world web application for a client. Brings a unique combination of technical skills, strong communication, and a proven ability to work effectively in team environments. Actively seeking opportunities in Junior Developer or IT Support roles.

TECHNICAL SKILLS

Languages & Technologies:

- Frontend: HTML, CSS, JavaScript, React (Vite), React Router, JSX
- Backend: Payload CMS, Node.js, RESTful APIs, JWT Authentication
- Database: PostgreSQL, Supabase
- Tools & Platforms: Git, GitHub, VS Code, Docker

Concepts & Practices:

- Responsive Web Design, Component-Based Architecture, Version Control
- Role-Based Access Control, API Integration, Agile/Scrum Workflow
- Object-Oriented Programming (OOP)

IT & Systems:

- Hardware and software troubleshooting and diagnostics
- Basic network setup and router configuration
- Windows OS navigation and system settings
- BIOS access and basic system configuration
- Self-taught problem solver with a strong foundation in understanding how technology works

PROJECTS

Frontend Developer | ACE Project Space — Local News Platform January 2026 – April 2026

- Built a full stack community-driven news platform connecting local journalists with their communities
- Developed reusable React components including dynamic newsfeed, sidebar, navigation, and admin dashboard
- Integrated Payload CMS REST API for real-time story submission, moderation workflow, and role-based authentication
- Implemented JWT-based authentication with protected routes for Readers, Reporters, Moderators, and Admins
- Built community and category filtering system allowing users to filter news by location and topic
- Collaborated with a team of 6 developers using Git branching, pull requests, and merge conflict resolution
- Delivered a mobile-responsive design using CSS media queries and a hamburger navigation menu

WORK EXPERIENCE

Medical Laboratory Technician (Part-Time) | Dynacare — Garden City May 2017 – Present

- Perform specimen collection, processing, and preparation with high accuracy and strict attention to detail
- Manage and maintain patient data with confidentiality and compliance with healthcare standards
- Operate and maintain laboratory equipment including sterilization and safe handling of hazardous materials
- Consistently uphold high standards of hygiene, safety, and patient care in a fast-paced environment
- Collaborate with healthcare professionals to ensure efficient and accurate laboratory operations

EDUCATION

Full Stack Web Development Certificate

September 2023 – April 2026

Red River College Polytechnic, Winnipeg, Manitoba

- Completed coursework in HTML, CSS, JavaScript, React, Java, OOP, and database fundamentals
- Developed and deployed a real-world client project using React, Payload CMS, and PostgreSQL
- Practiced Agile development methodologies, Git version control, and collaborative team workflows

Medical Laboratory Assistant Program

2016 – 2017

Robertson College, Winnipeg, Manitoba

- Completed comprehensive training in specimen collection, lab procedures, and medical terminology

VOLUNTEER EXPERIENCE

Volunteer | Winnipeg Harvest / Local Food Bank

- Sorted and packaged food donations for community distribution, demonstrating teamwork and community commitment

Donor & Participant | Operation Christmas Child — Samaritan's Purse

- Contributed gifts and participated in packing events supporting children in need internationally
